

# To The Citizens of Jackson County.

Owing to conditions and circumstances over which the editor of the Jackson County Sentinel had no control, the Sentinel was permitted to go into a state of disuetude, in other words, it has not been published regular. It is not necessary to go into the reasons for this irregularity, but suffice to say, that the Sentinel has taken on NEW LIFE, NEW ENERGY, and from now on will be issued REGULARLY every Friday.

E. W. Tardy will be in charge of the editorial and mechanical departments, and G. B. Gailbreath will be business manager. We appeal to every citizen in Jackson county, who have an interest in the progress and prosperity of the county, to come to our aid by subscribing for the paper at once, thus giving assistance at the time most needed. The subscription price is only \$1.00 per year, which is as cheap as a paper can be given you under present high prices all material that go to make a newspaper. We propose to make the Sentinel the very best paper published in the upper Cumberland section, giving all the news of your county and county seat. To accomplish this we desire to secure a good live, hustling correspondent in each district of the county, who will be prompt in giving us the news every week. We desire to secure these at once. Stationery furnished.

It is unnecessary for us to state that a good live, up-to-date newspaper is absolutely necessary to any county in order that the county may keep abreast of the times and maintain her standing as a real moving, progressive county and alive to all things that are worth our attention. In order for us to give you such a paper as you will want, we must have your hearty co-operation and support. You do this and will do the rest.

We have installed an up-to-date cylinder newspaper press, run by an engine, on which 3000 papers can be printed an hour. This will permit us to print a neat paper and get it out on time. 200 pounds of new ten point newspaper type with other material has been added to our equipment, making the office more up-to-date. We have secured the help of first class type setters, who will keep the work well in hand, so with your help, we can give you such a paper that will delight and interest you each week.

Those who receive the Sentinel before you send in your subscription, will bear in mind that it is sent to you, as a modest request that you send in your subscription at once, so you will continue to receive the paper each week.

Trusting that all may see that it will be to each and every ones interest, and to the best interest of our county to have a first class, up-to-date paper published in your county, and that you will all work to that end, we submit the matter to you with the kindest regards and best wishes for your future happiness and prosperity.

### Southern Apple Pone

Peel and core one dozen tart apples and place in a pudding dish. Scald one quart of milk, then add one scant quart of Indian meal, mixing and cooking for several minutes. Add one tablespoonful of salt, one cupful each of molasses and finely chapped suet and pour over the apples. Bake a couple of hours. This is very good.

3. There was a green house, and inside the green house was a white house, and inside the white house was a red house, and in the white house lived fifty little colored boys. Answer.—A watermelon.
